

## FIRE MUSEUM

by Buzz Diehl and Virginia Habicht

On July 14th, the morning of our car show at the Fire Museum, the weather did not look good. However, mother nature was kind to us. The rain stopped about 9:30 and an umbrella of clouds shielded us from the blazing hot sun.

We had twenty four cars on display and two members came modern. Beth Muscedere exhibited the oldest, a 1916 Model T Ford and a guest, Barry Larkin, exhibited the newest, a 2011 Chevy Volt. Can you imagine what Henry Ford would say if he could see this car of the future.

The "Officers of the Day" were Paul and Ginny Habicht, who did a great job. They set up a large round table with an attached umbrella. Paul logged in all arriving vehicles and drivers, and Ginny kept everyone fed and hydrated with home made cookies and iced tea . We thank them for their generosity in providing the refreshments.

They also were the winners of the Sponsor's Choice Award for their 1959 Cadillac 4dr Hardtop A good time was had by all. We handed out membership application forms to several potential new members.

We acquired new members, Chip and Mary Wise. They own a beautiful 1967 Volvo and they live in Timonium, MD.

Rob Williams, the coordinator of the museum, selected the sponsor's choice award to go to Paul Habicht's beautiful 1959 Cadillac Deville. Each entrant received a participation award dash plaque showing Walt Meyers 1930 Desoto.

The Fire Museum of Maryland has the largest and most complete collection of historical fire engines and equipment in Maryland. We appreciate their hospitality in providing us the use of this interesting spacious, and clean facility for our car hobbyists to display their cars.

The following members and guests displayed their vehicles.

- 1 Paul & Ginny Habicht 1959 Cadillac
- 2 Barry Larkin 2011 Chevy Volt
