## **Ken Stevenson And His 'Woodpeckers' Club Still Active, Making Wooden Cars For Kids Since 1948!**

*Ken Stevenson photos*

Ken says: My woodworking club, 'The Woodpeckers' founded in Baltimore in 1948, makes wooden toys at Christmastime. I guess because I'm a gear head, I make wooden cars. Fellow club member and my close friend, Jack Merrill, and I made 61 little cars. We bagged four cars and a set of paints, for a total of 15 bags. Woodpeckers made 261 toys, and delivered them to six area hospitals and 'The House of Ruth.'
